# Agenda

➤ History

➤ Metrics

➤ Way Ahead

# History

- Combined CLF/CPF August 2001 message to NAVSEA and NAVSUP calling for Maritime Allowance Process Review
  - Thorough fleet-focused review of inventory strategy and allowance process
  - Develop recommendations for improvement
- Areas of emphasis
  - Configuration Management
  - Allowance Products and Processes
  - Allowance Product Use and Maintenance
  - Budgeting and Execution

# History (Con't)

- MAWGC charter signed 14 Jul 03 by N41
  - Result of FLSIC action item
  - Tie programming and budgeting with exigent allowancing requirements
  - Take into account Fleet readiness impacts for both RBS and non-RBS systems
  - Monitor and link programming to execution

# Metrics

## 4MAR03-01

- Under construction
  - Initial message..."Required outputs of the review are consistent standardized quality allowance products and metrics that adequately capture the performance of the allowance product and supply chain."
- Proposed Working Group to capture metrics
- Crosses all existing working groups

**Measure of success for all processes!**

# Way Ahead

- Continued focused review of allowance processes and products
- Defendable budget requirements
- Thinking out-of-the-box
- Forward thinking - risk mitigation
- MAWG...change with the environment - Continuous...not a one time event

**ommunication between all parties a must**
